UNI-PAC™ II

AIR-DROP SUPPORT FOR MULTI-ROLE AIRCRAFT LSI P/N:

SUR-3816-00

NATO Approved

THE UNI-PAC AIR DROP KIT IS A SEMI-RIGID, FULLY ADJUSTABLE CYLINDRICAL CANISTER, DESIGNED TO BE RIGGED FOR DELIVERY FROM THE SIDE DOOR, TAIL RAMP OR BOMB-BAY OF VARIOUS MULTI-ROLE AIR-CRAFT APPLICATIONS

THE SYSTEM INCLUDES

- ENVIRONMENTALLY PACKAGED, MULTI-PERSON LIFE RAFT FLOATING RETRIEVAL LINE
- FLOAT MARKER BUOY
- SOFT CANISTER WITH HANDLES
- SURVIVAL KIT (OPTIONAL)

APPLICATION: Multi-Mission Air Drop Kit, Universal Aircraft & Deployment

The UNI-PAC II is a Multi-Mission Air Drop Kit packaged in a single, semi-rigid, fully adjustable cylindrical canister. It is designed to contain supplies and/or equipment depending upon the mission. The equipment may include a life raft configured to automatically deploy during delivery. Various aircraft applications include but are not limited to the **P-3 Orion, P-8, C-130, C-123, CASA-212, CASA CN235, S-3 Viking, C7/C-V2**

CONFIGURATIONS

LSI P/N:	NATO	CONFIGURATION
SUR-3816-00	4220-01-631-2697	UNI-PAC II, Air-Drop Survival Kit, Universal Aircraft & Deployment

SUR-3816-00-08		UNI-PAC II, Air Drop SAR Kit, Universal w/ 8-Person, USN
LRU-30/A Life Raft	SUR-3816-00-12	UNI-PAC II, Air Drop SAR Kit, Universal w/ 12 Person USN Life Raft
SUR-3816-00-12W		UNI-PAC II, Air Drop SAR Kit, Universal w/ 12 Person MPLR

FEATURES

• VERSATILE

Delivery of the UNI-PAC II can be accomplished from side door, tail ramp, or Bombay of the aircraft. The UNI-PAC II may be configured to carry a multi-person life raft and survival kit, medical supplies, rations, water, clothing, shelter, communications equipment, weapons or spare parts. The kits are easily interchangeable for variation of deployment method or variation of supplies to be delivered.

• SAFE

The UNI-PAC II is a self-contained unit, eliminating the launch lanyard of multi-pack kits with connecting lines. Designed to **drop speeds of up to 200 KIAS**, eliminating the need to lower flaps for aerial delivery.

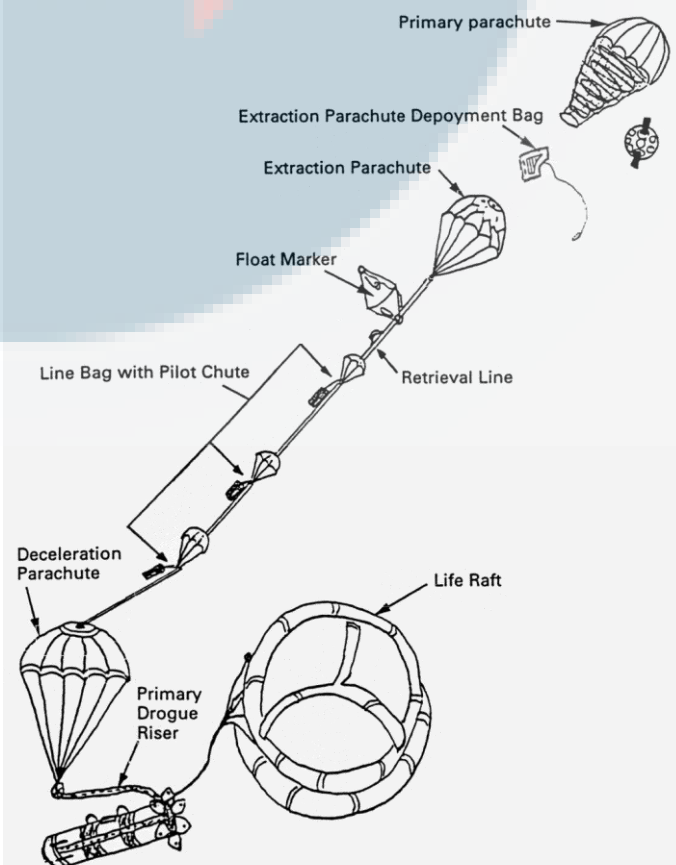

• ACCURATE

Parachute deceleration and stabilization results in drop accuracy within 10 meters.

• TRAINING MODULE

A major advantage of the UNI-PAC II is the use of a cost-effective training module, which is re-

DEPLOYMENT SEQUENCE

** LSI has a policy of continuous improvement and reserves the right to modify product(s) or features at any time.

TACTICAL SUPPORT / CARGO DELIVERY

Provides air-drop support to special operation teams and ground units conducting covert operations in forward areas. **Weapons, Ammunition, Spare Parts, MRE's.**

Survival Kits, Signaling Equipment, & Medical Equipment

EMERGENCY RESPONSE

Provides capability to air-drop supplies that are remote or inaccessible. **Water, Food, Clothing, Shelter, Medical Supplies**

SEARCH & RESCUE

Provides direct air-drop support to survivors and victims in emergency situations . **Life Rafts,**

SIDE DOOR DEPLOYMENT

TAIL RAMP DEPLOYMENT

BOMBAY RACK DEPLOYMENT
